\* Accessions are based on the DMDC edit version of the MEPCOM file. Before FY 1994, these numbers differ from accessions reported in Tables D4-D10, which are based on the unedited file received from MEPCOM.

\*\*The Population Representation in the Military Services (POPREP) is based on data from the Defense Manpower Data Center (DMDC). FY 06 Breakouts of accessions by service component and prior service/non-prior service designation will not match reports by individual services because of differences in defining prior service accessions. DMDC uses the Defense Enrollment Eligibility Reporting System (DEERS) to determine prior service, but the services each use their own criteria

\* Data for FYs 1964 and 1970-1972 are based upon voluntary enlistments only. They do not include drafted inductees.

\*\* FY 1964 was the last pre-Vietnam conscription year.

\*\*\*Data are based on data from the Defense Manpower Data Center (DMDC). Breakouts of FY06 accessions by service component and prior service/non-prior service designation will not match reports by individual services because of differences in defining prior service accessions. DMDC uses the Defense Enrollment Eligibility Reporting System (DEERS) to determine prior service, but the services each use their own criteria. \* In FY 2003 there was a change in the way DOD reported race/ethnicity data. The new race/ethnicity data were not available for all Services until after the first quarter of FY03. Therefore, DOD and civilian race and ethnicity data only represent the last three quarters of FY03.

\*\* First quarter totals were added to DOD second through fourth quarters subtotals for cross-year comparison purposes. Percentages are for last three quarters of FY03.

\*\*\*The Population Representation in the Military Services (POPREP) is based on data from the Defense Manpower Data Center (DMDC). Breakouts of accessions by service component and prior service/non-prior service designation will not match reports by individual services because of differences in defining prior service accessions. DMDC uses the Defense Enrollment Eligibility Reporting System (DEERS) to determine prior service, but the services each use their own criteria.

\* In FY 2003 there was a change in the way DOD reported race/ethnicity data. The new race/ethnicity data were not available for all Services until after the first quarter of FY03. Therefore, DOD and civilian race and ethnicity data only represent the last three quarters of FY03.

\*\*The Population Representation in the Military Services (POPREP) is based on data from the Defense Manpower Data Center (DMDC). Breakouts of accessions by service component and prior service/non-prior service designation will not match reports by individual services because of differences in defining prior service accessions. DMDC uses the Defense Enrollment Eligibility Reporting System (DEERS) to determine prior service, but the services each use their own criteria.
