* The Population Representation in the Military Services (POPREP) is based on data from the Defense Manpower Data Center (DMDC). Breakouts of accessions by service component and prior service/non-prior service designation will not match reports by individual services because of differences in defining prior service accessions. DMDC uses the Defense Enrollment Eligibility Reporting System (DEERS) to determine prior service, but the services each use their own criteria.

Rows and columns may not add to totals due to rounding.

* The Population Representation in the Military Services (POPREP) is based on data from the Defense Manpower Data Center (DMDC). Breakouts of accessions by service component and prior service/non-prior service designation will not match reports by individual services because of differences in defining prior service accessions. DMDC uses the Defense Enrollment Eligibility Reporting System (DEERS) to determine prior service, but the services each use their own criteria.

**Includes individuals who indicated non-Hispanic ethnicity or did not respond to ethnicity question.

Rows and columns may not add to totals due to rounding.

* The Population Representation in the Military Services (POPREP) is based on data from the Defense Manpower Data Center (DMDC). Breakouts of accessions by service component and prior service/non-prior service designation will not match reports by individual services because of differences in defining prior service accessions. DMDC uses the Defense Enrollment Eligibility Reporting System (DEERS) to determine prior service, but the services each use their own criteria.

**Includes individuals who indicated non-Hispanic ethnicity or did not respond to ethnicity question.

* The Population Representation in the Military Services (POPREP) is based on data from the Defense Manpower Data Center (DMDC). Breakouts of accessions by service component and prior service/non-prior service designation will not match reports by individual services because of differences in defining prior service accessions. DMDC uses the Defense Enrollment Eligibility Reporting System (DEERS) to determine prior service, but the services each use their own criteria.

** High quality accessions are AFQT Category I-III A, high school graduates.

***Includes individuals who indicated non-Hispanic ethnicity or did not respond to ethnicity question.

Rows may not add to totals due to rounding.

* The Population Representation in the Military Services (POPREP) is based on data from the Defense Manpower Data Center (DMDC). Breakouts of accessions by service component and prior service/non-prior service designation will not match reports by individual services because of differences in defining prior service accessions. DMDC uses the Defense Enrollment Eligibility Reporting System (DEERS) to determine prior service, but the services each use their own criteria.

* The Population Representation in the Military Services (POPREP) is based on data from the Defense Manpower Data Center (DMDC). Breakouts of accessions by service component and prior service/non-prior service designation will not match reports by individual services because of differences in defining prior service accessions. DMDC uses the Defense Enrollment Eligibility Reporting System (DEERS) to determine prior service, but the services each use their own criteria.

**Includes individuals who indicated non-Hispanic ethnicity or did not respond to ethnicity question.

Breakouts of accessions by service component and prior service/non-prior service designation will not match reports by individual services because of differences in defining prior service accessions. DMDC uses the Defense Enrollment Eligibility Reporting System (DEERS) to determine prior service, but the services each use their own criteria.

**Includes individuals who indicated non-Hispanic ethnicity or did not respond to ethnicity question.

* The Population Representation in the Military Services (POPREP) is based on data from the Defense Manpower Data Center (DMDC). Breakouts of accessions by service component and prior service/non-prior service designation will not match reports by individual services because of differences in defining prior service accessions. DMDC uses the Defense Enrollment Eligibility Reporting System (DEERS) to determine prior service, but the services each use their own criteria.

** Comparison group includes civilians in the work force.

***Includes individuals who indicated non-Hispanic ethnicity or did not respond to ethnicity question.

Rows and columns may not add to totals due to rounding.

* The Population Representation in the Military Services (POPREP) is based on data from the Defense Manpower Data Center (DMDC). Breakouts of accessions by service component and prior service/non-prior service designation will not match reports by individual services because of differences in defining prior service accessions. DMDC uses the Defense Enrollment Eligibility Reporting System (DEERS) to determine prior service, but the services each use their own criteria.

** High quality accessions are AFQT Category I-III, high school graduates.

***Includes individuals who indicated non-Hispanic ethnicity or did not respond to ethnicity question.
