Sources: *America's Volunteers: A Report on the All-Volunteer Forces* (Washington, DC: DoD, December 1978); Patterson, D. A., & Haskins, J. A., *The Air Force, Conscript, and the All-Volunteer Force* (Montgomery, AL: Air University Press, December 1987); DMDC; and OASD (FMP) (MPP)(AP).

1. The end of the fiscal year was moved from June 30 to September 30 during calendar year 1977. As a result, the data for FY77 reflect accession counts for five quarters.

Civilian data compiled by the Statistical Information Staff, Population Division, Bureau of the Census, Washington, DC (21 June 1993).

Accessions reported for 1954-1963 include males only; including females would increase accessions by less than 2 percent.

Table D-2. Annual Civilian Unemployment Rate by Age Group, 1973-2015

YEAR	CIVILIAN UNEMPLOYMENT RATE			
	16 YEARS AND OVER	16-24 YEAR-OLDS	16-19 YEAR-OLDS	20-24 YEAR-OLDS
1973	4.9	10.5	14.5	7.8

1. Data for FYs 1970-1972 are based upon voluntary enlistments only. They do not include drafted inductees.

2. The end of the fiscal year was moved from June 30 to September 30 during calendar year 1977. As a result, the data for FY77 reflect accession counts for five quarters.

Data are based on data from Defense Manpower Data Center (DMDC).

Percents are percent of component that are females in that year.

Source: Civilian data 1970-1972 from Labor Force Statistics derived from the Current Population Survey, 1948-1987 (Washington, DC: Bureau of Labor Statistics, August, 1988); Civilian data 1973-present from Bureau of Labor Statistics Current Population Survey monthly files. Civilian data prior to 1989 represent calendar year. Service data 1970-1972 from Patterson, D. A., & Haskins, J. A., *The Air Force, Conscripted, and the All-Volunteer Force* (Montgomery, AL: Air University Press, December 1987); and OASD (FMP)(MPP)(AP). Service data 1973-present from DMDC.

1. Tier 1 accessions are primarily high school diploma graduates, but they also include people with educational backgrounds beyond high school, as well as those with adult education diplomas, one semester of college, and in recent years, some home-schooled and virtual/distance learning graduates.

2. The end of the fiscal year was moved from June 30 to September 30 during calendar year 1977. As a result, the data for FY77 reflect accession counts for five quarters.

Military data are provided by the Defense Manpower Data Center (DMDC).

2. AFQT scores are percentiles that are normalized to the 1997 American youth population. For example, a score of 92 represents the 92nd percentile of the youth population scored at or below that score. It is standard to report these AFQT score percentiles in the categories listed below.

Cat I: 100-93 Cat IIIB: 49-31
 Cat II: 92-65 Cat IV: 30-10
 Cat IIIA: 64-50 Cat V: 9-1

2. Values reflect Armed Services Vocational Aptitude Battery (ASVAB) misnorming.

3. The end of the fiscal year was moved from June 30 to September 30 during calendar year 1977. As a result, the data for FY77 reflect accession counts for five quarters.

Rows may not add to totals due to rounding.

1. High quality individuals are primarily high school diploma graduates (Tier 1) who are in Armed Forces Qualification Test (AFQT) categories I through IIIA.
2. Values reflect Armed Services Vocational Aptitude Battery (ASVAB) misnorming.
3. The end of the fiscal year was moved from June 30 to September 30 during calendar year 1977. As a result, the data for FY77 reflect accession counts for five quarters.

1. Affected by large number of unknowns in FYs 1973-1976. Because most unknowns were in their first year of service, and unlikely to be married, they were coded as unmarried in calculating the percentage.

Source: Civilian data from Bureau of Labor Statistics Current Population Survey monthly files. Civilian data prior to 1989 represent calendar year.

1. Officer gains reflect an addition to the officer ranks. This addition can reflect a new accession, a movement from another component, or the return of the officer to the same component. The OSD definition of an officer gain is a transaction in a database that reflects the addition of an SSN that was not in the previous file.

1 Officer gains reflect an addition to the officer ranks. This addition can reflect a new accession, a movement from another component, or the return of the officer to the same component. The OSD definition of an officer gain is a transaction in a database that reflects the addition of an SSN that was not in the previous file.

Percents are percent of officers in that component and year that are female.

1. American Indian, Alaska Native

2. Native Hawaiian, Pacific Islander

3. In FY03, there was a change in the way DoD reported race/ethnicity data. However, the new race data were not available for all services until after the first quarter of FY03.

As a result, the DoD data for individual race groupings reflect accessions for only the last three quarters of FY03. First quarter total accessions were added to DoD second through fourth quarter subtotals in order to illustrate cross-year aggregate comparisons. FY03 percentages by race grouping are for the last three quarters of FY03.

Source: Civilian data from Bureau of Labor Statistics Current Population Survey monthly files. Military data are provided by the Defense Manpower Data Center (DMDC).

Rows may not add to totals due to rounding.

1. This table has been constructed using pre-FY03 race/ethnicity categories. Hispanics of all races are reported as a single group. The remaining individuals are listed as "Non-Hispanic White," "Non-Hispanic Black," or "Non-Hispanic Other."

2. The end of the fiscal year was moved from June 30 to September 30 during calendar year 1977. As a result, the data for FY77 reflect accession counts for five quarters.

2. In FY 2003 there was a change in the way DoD reported race/ethnicity data. The new race/ethnicity data were only made available for the last three quarters of FY2003. Thus, the FY 2003 data includes percentages for NPS accessions by race/ethnic for the last three quarters of FY 2003 only. Since we do not have full year totals, we omit the total number of accessions.

Source: Civilian data from Bureau of Labor Statistics Current Population Survey monthly files. Military data are provided by the Defense Manpower Data Center (DMDC).

Rows may not add to totals due to rounding.

1. In FY 2003 there was a change in the way DoD reported race/ethnicity data. The new race/ethnicity data were only made available for the last three quarters of FY2003. Thus, the FY 2003 data includes percentages for NPS accessions by race/ethnic for the last three quarters of FY 2003 only. Since we do not have full year totals, we omit the total number of accessions. Race and ethnic distributions were not reported in FY2003 for enlisted members. Source: Civilian data from Bureau of Labor Statistics Current Population Survey monthly files. Military data are provided by the Defense Manpower Data Center (DMDC).

1. In FY 2003 there was a change in the way DoD reported race/ethnicity data. The new race/ethnicity data were only made available for the last three quarters of FY2003. Thus, the FY 2003 data includes percentages for NPS accessions by race/ethnic for the last three quarters of FY 2003 only. Since we do not have full year totals, we omit the total number of accessions. Race and ethnic distributions were not reported in FY2003 for enlisted members. Source: Civilian data from Bureau of Labor Statistics Current Population Survey monthly files. Military data are provided by the Defense Manpower Data Center (DMDC).

1. This table has been constructed using pre-FY03 race/ethnicity categories.

2. Comparison group for gains is 21-35 year-old civilian college graduates in the noninstitutional population.

3. Comparison group for Corps is 21-49 year-old civilian college graduates in the civilian labor force.
